

ASU Drupal Users Group

DrupalCon DC '09, ASU Drupal News, CAS, FeedAPI

March 26, 2009

DrupalCon DC '09

- ❖ Video of (almost) every session
<http://drupal.org/node/385952>
- ❖ The State of Drupal
- ❖ Drupal 7
- ❖ Why I Hate Drupal
- ❖ Apache Solr
- ❖ Web service API integration

CAS

- ❖ Single Sign-on: <http://www.jasig.org/cas>
- ❖ Open source, originally created by Yale University
- ❖ Use it! Stop using Webauth for Drupal.

CAS Module Installation

- ❖ Install the module: <http://drupal.org/project/cas>
- ❖ Download PHP CAS (<http://www.ja-sig.org/wiki/x/0wvP>) and put into “CAS” folder inside module, i.e.
`/path/to/modules/cas/CAS/CAS.php`
- ❖ Create a “cas user” role
- ❖ Setup CAS in Drupal: `admin/user/cas`
- ❖ Server: `weblogin.asu.edu`, URI: `/cas`

FeedAPI

- ❖ <http://drupal.org/project/feedapi>
- ❖ Aggregate content to your site via feeds (RSS, Atom, RDF, etc.). Basically, use other sites to create content on your site.
- ❖ Setting up a feed
- ❖ Common use cases / issues:
 - Elements to CCK fields: http://drupal.org/project/feedapi_mapper
 - Applying input filters: <http://drupal.org/project/filterbynodetype>
